

all the word,  
ah, the world,  
beckoning, beholding, begetting,

does sit watching,  
forgetting, listening,  
to arrive full and a void,

since together, we separate, to break,  
to bond and mend, in heat,  
in ashes, spreading the embers,

our focus in, and out, of each,  
to the other, across and burned up,  
this exaggeration,

dear You,  
forgive this time, this pleantry,  
my pageantry paternal and constant,

well,  
almost.

define trying, define cast stories,  
that whisper from one gutter,  
to the next,

exhausted, the option,  
a choice paralyzed,  
eternal and flowing,

both a moment and the curve,  
individually derived,  
from the same solution, mesmerized,

from the clouds, toward rough pasture,  
alongside the locomotive,  
driving hard,

hardened,

and pastoral,

the new bucolic,  
sane,  
lost,

far, and away,  
our Lord of the Flies,  
our capital gain,

my superman betrayed,  
to rise again, to fall,  
in cycle with it all,

a demand so strong,  
I lie,  
drawn drowsy,

from musty smells,  
so full,  
of texture,

irregular, it seems, that constant,  
is strange, the only constant,  
is change, we turn,

and turn,

and turn,

to ward,  
to fend,  
to misbehave,

and turn,

and turn,

and turn,

long lasting father,  
is there strength left,  
in your forearms,

to lift yourself,  
from me,  
and let this slide away,

I have not,  
Your opinion or thought,  
My motion eclipsed and distraught,

unlearned, this fastening,  
since mine is not upper-case,  
and being free means more,

than ever either of us,  
thought it could ever be,

whose son's down,  
whose son's down,  
whose son's down at the end of the day,

polemical, a resin cast,  
out, intangible, intelligible,  
just past the reach,

return to conversation anew,  
let the breath, covered, escape,  
bless you,

cuidado, mi novia belleza,  
te amo,  
para siempre,

y quien es mejor,  
cuando todos tienen,  
trompetas nuevas,

guardamos besos,  
para la lluvia de plata,  
que vamos a necesitar,

today, amen,  
tomorrow, alguien.
